Year Est: 2001 **AZ Staff:** 55  
**Principal(s):** John Brunia

Premier Mechanical Corporation's (PMC) primary specialty is the renovation and expansion of industrial, municipal, educational and commercial facilities. The level of awareness required to perform construction tasks in operating facilities is what sets PMC apart. The firm's team has the experience necessary to recognize any potential interference with customer operations and implement procedures to eliminate problems before they occur. PMC also offers turnkey, design-build services to customers with highly specialized needs. PMC was founded as a corporation in 2001. The management team, however, has a long history of working together in the local construction market. While PMC has become a recognized name in the industry, names of key individuals and their reputations for outstanding professionalism are well known. PMC has earned the respect of industry peers for its outstanding knowledge, ethical conduct and team-oriented business philosophy. Collectively, the team represents more than 125 years of local experience in the construction industry. The PMC team's long-term business strategy includes achieving growth through continued development of a satisfied customer base, and maintaining an awareness of new market trends and opportunities.
